

VENEERS GRADE A/B

NATURAL FINISH WITH EXCELLENT APPEARANCE

Produced from certified eucalyptus plantations in Uruguay. Available in four grades and various thicknesses, covering needs from hidden structures to fine furniture.

PROPERTIES

Solid and free from open defects and broken grain.

Slightly rough grain allowed.

Some natural pin knots and small open cracks.

APPLICATIONS

Plywood panels, furniture, doors, and interior moldings emphasizing appearance.

| CHARACTERISTICS | TARGET | MIN | MAX |
|--------------------------|--------|-------|-------------------------------|
| % MC Moisture content | 6 | 3 | 12 (small blisters up to 14%) |
| Width (m) | 1,285 | 1,265 | 1,30 |
| Length (m) | 2,59 | 2,56 | 2,60 |

Thickness range: 1.0 to 3.2 mm (availability upon request).

CERTIFICATION

FSC® 100% - Responsible forest management
